

Fly to China !

5 students were dispatched to China for their global field trip and study in 2016

This project, named 2016 global internship program, is officially launched by Gyeongnam Provincial Namhae College, International Language Center.

Gyeongnam Provincial Namhae College had a departure ceremony on July 26th to dispatch five students to Beijing, China. One student is from School of Tourism, and one student is from School of Business Management.

The selected students are going to take some language and culture classes at University of International Business and Economics in China for a semester. They are going to join the internship program for a semester, staying at local premium hotels and corporations. Additionally, three students are supposed to be dispatched to China for their global internship for next semester.

Um Changhyun, president of Gyeongnam Provincial Namhae College has encouraged students, telling "most of all, I would like to extend a warm congratulations to students are selected for their global internship program. I hope you can successfully finish the global internship course to be the elite in China even if it is only a temporary program. It is for one semester program.

A student named Lee Sukwoo currently studying Business and Management said "I appreciate some professors and college administration because their instruction was critical. In fact, I did not anticipate I will be selected because of its high competition. I am going to do my best to study language, culture and my major at Beijing for a semester".

Gyeongnam Provincial Namhae College has been dispatching students to abroad because the college has been consecutively selected to be sponsored by Korean Ministry of Education since 2010 under the name of Global Internship Project for Junior Colleges. The Korean Ministry of Education has run Global Internship Project for Junior Colleges. The expense for their education and staying will be fully covered by national and provincial grant. The program's overall purpose is to instruct the students so they can improve their job capability and future proficiency.
